MATTAPOISETT CONGREGATIONAL CHURCH

New England churches are famous throughout the world for their beautiful simplicity and we have one of the finest examples of that art on our cover. No matter how old it becomes, this architecture will be modern because of the classic lines dating back to the ancient Greek temples. In Marion, the Congregational Church is a sister to our Mattapoisett church, and was apparently built from the same plan. The only difference that I can see, on the outside, is the clock, and you will notice that that the church on the cover has a circular place in the steeple where a clock could be placed.

MACHACAM CLUB TO MEET

The Machacam Club of Mattapoisett will hold a supper and meeting on Wednesday evening, November 2 at 6:30 P. M. Following the business meeting, motion pictures will be shown by Ray Bradley. All members are invited to attend.

RHYTHM BAND PLAYS AT TEACHERS CONVENTION

Forty-six members of the rhythm band of the Mattapoisett Center School played in Brockton, Mass. Friday for the Plymouth County Teachers Convention. They were accompanied by Mrs. Allen Sherman and Mrs. John Denham, Jr., and was the only rhythm band asked to play. The parents made capes and hats in red and black for them to wear.

AWARDS PRESENTED AT ASSEMBLY

At the Tuesday assembly at the Mattapoisett Center School, Mr. George Correa presented the prizes to the essay contestants, the subject of which were "Why Mattapoisett Should have small Industries". This contest was sponsored by the Mattapoisett Businessmen's Association.

Frist prize of $10.00 went to George Correa; second of $5.00 to Joyce Harriman and third of $3.00 to Beth Bailey. An appreciation prize of $1.00 for having the interest to write an essay was presented to each of the other contestants, namely, Ellen Mahoney, Judith Walega, Terrence Cray, Mary Reed, Thomas Renahan and Scott Phillips.

The following is the essay written by the first prize winner:

Double Economy versus Single Economy

I think Mattapoisett needs small industry because it will attract new residents and give Mattapoisett a chance to expand. This will also give Mattapoisett additional taxes to improve its facilities without letting the average taxpayer feel the brunt of it. The hurricane of last year, which served to reduce our main single economy, namely, summer trade, increased the tax rate a great deal.

This make me believe that we should encourage small industry to offset our loss of revenue from taxes from a single economy, and it would produce a double economy. Also

small industry would encourage local youth to take up highly trained jobs in these local specialized small industries.

It should be remembered that some children are not as adept at expressions on paper as are others. The fact that awards were made to all entries was commendable and the Mattapoisett Businessmen's Association used good thought in doing so.

A business meeting and open house will be held on the Tuesday evening. The fair will take place in the auditorium of the Sippican School and will be presented by the Putnam Book Shop of Falmouth for the second year. There will be a cash and carry table with books up to $1.00. On display will be books for all ages from 2 to 100 and 1000 books to select from and place orders for. Mrs. Robert Thackeray, chairman, is assisted by Mrs. John R. Beach, co-chairman.

At the Tuesday evening meeting, the speaker will be Val Gendron, author and Cape Bookmobile operator.

Val Gendron was born in Chicago, Illinois, and was educated in public and private schools in that city and its suburbs. She graduated from the University of Chicago in 1937. During 1945-1946 she attended advanced writing courses at New York University, then, in 1947, at Columbia University. She began writing magazine fiction in 1944 and continued through 1952. Her teen-age novels include "Fork in the Trail", "Powder and Hides" and her latest novel "Outlaw Voyage".

Val Gendron is now living in Dennisport, Cape Cod, Mass. She fell in love with clipper ships and their fascinating history at an early age and has never lost her enthusiasm for them. As a child she carved many ship models, built to scale, and dreamed of the famous clippers, their voyages to exotic ports, and the men who sailed them. In "Outlaw Voyage" she has written about these things that stirred her childhood imagination.
